

This Green Valley Builders, Inc. House features the ENERGY STAR® Advanced Lighting Package

GREEN VALLEY
BUILDERS
From the ground up

This Green Valley Builders, Inc. house features the ENERGY STAR **Advanced Lighting Package**, which means that more than 60% of the light fixtures and all of the ceiling fans are ENERGY STAR qualified.

The benefits of the ENERGY STAR **Advanced Lighting Package** at 806 Petra Pass, Blacksburg, VA 24060, include:

- **Savings of more than \$577 per year in energy costs** compared to an equivalent all-incandescent lighting package.*
- ENERGY STAR qualified fixtures use approximately 75% less energy than standard incandescent fixtures.
- ENERGY STAR qualified light fixtures generate about 75% less heat, reducing expensive home cooling needs and keeping you more comfortable.
- Light bulbs in ENERGY STAR qualified light fixtures last about ten times longer than standard incandescent bulbs. This means fewer bulb changes in hard to reach places.
- ENERGY STAR qualified light fixtures carry two-year warranties—twice the industry average.

With an ENERGY STAR **Advanced Lighting Package**, 6 out of 10 light fixtures and all ceiling fans are ENERGY STAR qualified, using less energy, saving you money and keeping your family more comfortable while also reducing greenhouse gas emissions.

By including the ENERGY STAR **Advanced Lighting Package**, Green Valley Builders, Inc. helps reduce greenhouse gas emissions and saves customers money on their utility bills.

*This Advanced Lighting Package consists of 64 ENERGY STAR qualified fixtures. Savings estimate assumes fixtures operating for an average of 3.13 hours per day, at the local rate of \$0.1/kWh. All savings assumptions available upon request. Packages declared by third parties, but not verified by US EPA.

Products that earn the ENERGY STAR® prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and the U.S. Department of Energy.
